Preliminary Programme

Surgery of the Thoracic Aorta

NINTH POSTGRADUATE COURSE

13th - 14th NOVEMBER 2017
BOLOGNA - ITALY

Course Director
Roberto Di Bartolomeo

Cardiac Surgery Department
University of Bologna
S. Orsola Hospital
Bologna, Italy
Dear Friends and Colleagues,

it is a great pleasure for us to invite you to the Ninth Postgraduate Course on “Surgery of The Thoracic Aorta”, which will take place in Bologna on 13th and 14th November 2017.

This interactive meeting will focus on open, hybrid, transcatheter and endovascular techniques employed during operations on the thoracic aorta.

The Course is addressed to Surgeons, Cardiologists, Radiologists and Anesthetists. Participants will be offered an attractive and diverse scientific programme containing a full spectrum of exchange and learning opportunities.

The programme will also include a number of live surgery demonstrations in order to illustrate state-of-the art procedures and technologies. The Course will take place in a very relaxed and casual atmosphere so that all participants can openly exchange opinions and experiences.

You are also invited to send videos showing your personal surgical experiences related to the topics of the meeting that will be presented and discussed during specific interactive sessions devoted to each topic.

The venue is Bologna, a very elegant and ancient city, which is also famous for its University and, of course, for its cuisine.

Please join us and make this meeting a memorable one.

We are looking forward to welcoming you for an unforgettable learning experience.
